DETAILED ACTION

Response to Amendment

Examiner acknowledges the preliminary amendment made by applicant's representative and received 12/27/02. Examiner further acknowledges the addition of claim 9.

Applicant states on page 3 of his previous response received 5/15/02, that 'claims 1 through 18 continue in this case'. Claims 1-8 and new claim 9 are the only claims currently filed with the application, therefore claims 1-⁹~~8~~ are the only ones examined in this office action.

Claim Rejections - 35 U.S.C. § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-9 rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Vancura.

Vancura discloses Gaming Machines with Bonusing. In his game he teaches the playing of a bonus game in a secondary machine adjacent to a primary machine. Vancura's invention substantially teaches the limitations as claimed.

Referring to Claim 1, 3, 7 & 9

Vancura teaches:

- that the primary machine acts as a traditional slot machine (col. 18, lines 22-24).
- that the primary gaming machine can be a suitable gaming machine, such as, slot, poker, keno etc.;

and

- the accumulating of winnings in an award meter (col. 17, lines 44-54).

Referring to Claim 2 & 8

Vancura teaches:

- a secondary machine (claim 1);
- a bonus qualifying signal, to play a bonus game on the secondary machine, when a predetermined combination of symbols is obtain (col. 18, lines 24-28);
- determining the winning values and accumulating winnings in the specific winning machine (claim 1).

Referring to Claim 4

Vancura teaches:

- a bonus-qualifying event determined after the primary machine is activated (col. 3, lines 18-20 and col.4, lines 55-64).

Referring to Claim 5 & 6

Vancura teaches:

- a secondary machine (claim 1);
- the use a processor to facilitate all the functions of the primary (master) and secondary (slave) machines (see figure 50);
- a bonus/jackpot (claim 12);
- collecting the game results of the secondary machine in the primary machine (col. 16, lines 62-67);

Art Unit: 3711

- that the primary machine can be used as a slot, poker or keno machine (col. 5, lines 14-20).

Response to Arguments

Applicant's arguments filed 5/15/2002 and preliminary amendment received 12/27/02 have been fully considered but they are not persuasive. Applicant extensively argues the differences between the cited references and the claimed invention. Applicant, however, fails to claim anything that is novel compared with the teachings of the cited reference.

The independent claims were amended to include the word 'actuated' which simply means "put into mechanical action". This does not present novelty when compared with the cited reference and other representations well known in the art.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Takenouchi et al. (528) & (995), Traci and Barrie et al. are cited to show the state of art with respect to features of the claimed invention.
